

# Toronto's Cultural Heritage Landscapes

---

## From Plan to Action

**Join us for this exciting discussion on cultural heritage landscapes in Toronto!** A cultural heritage landscape (CHL) is defined by the province as 'a property or defined geographical area of cultural heritage significance that has been modified by human activities and is valued by a community.' Toronto's Official Plan was recently revised to include direction for the protection of CHLs in the city. The purpose of this public Forum is to explore what CHLs are, to examine case studies from Ontario communities, and to consider how CHLs may be approached in Toronto.

### FORUM SPEAKERS:

Carolyn King, Former Chief of the Mississaugas of the New Credit First Nation

Julian Smith, Architect and Director, Willowbank Centre for Cultural Landscape

Brendan Stewart, Landscape Architect and Urban Designer, ERA Architects

Wendy Shearer, Landscape Architect, Cultural Heritage Specialist
